NEW PRESIDENCY TESTED BY MIGRATION

✍MsLadyGrim

Lady QueenB, seventeenth president of State 89, took office after her alliance, THE ROGUE PATROL [RO13], conquered the capital. We asked the new president about her migration policies, and she stated: "We will need to launch a recruitment campaign to bring people here".

With less than a week left before Season 4, "Age of Eternal Winter", comes to an end, the new president, when asked about her expectations regarding migration policy, said: "Similar to last migration- put ads out in chats".

"With migration coming soon main focus will be on it. We want to bring people here to replace those leaving", Lady QueenB highlighted when asked what her administration would do differently from others.

Lady QueenB also served as president in State 94. She emphasized that she feels "pretty good (being president again)- i was president of state 94 before. I had enacted some policies that a majority of the people there welcomed and enjoyed. I hope to do the same here eventually".

In her first presidential mail, aside from reiterating what she previously expressed in an interview with Luxury Time, she stated that the vice presidency will remain exclusively for members of the RO13 alliance.

The situation in State 89 is sinking into uncertainty and internal disputes since RO13, formerly PA13, and ~MOM, formerly XOXO and merged with NWE, joined the NAP, altering the state's status quo.

He continued: "When I zeroed her she was in kod I think and had another account as she told me. Then she told me about the pic in this account and told me she has nothing to do with it".

"It was mf Flip (Flip my nickname) so she try to mock. Then she changed to to missn after I changes my name and pic to what you are seeing now", FLIP explained when asked about her profile picture. He added: "Her real account is in epx. Her name is Serena. Yesterday she was saying its her ex account and wanted me to remove her pic from the current one".

When we asked if his photo means he is "controlling" Serena, FLIP replied: "Nope but I control their fate. Zeroed many and played Krak yesterday. They were desprate for points. We didn't win the duel but we won war day".

"This is the second time we faced them. I have been quiet for a while ignoring their disrespect towards us but this time they mocked others in our alliance and I can't let this one go wothout them taste the same", he continued.

He detailed: "Krak changed its name to disrespect our alliance as well. Another guy used my teammate's pic as well. I don't care about people being rude to me but provoking my friends will show them the beast in me. I have scored nearly 90m in war yesterday. And got top 1."

When asked if he had a message for KRAK, he said: "Yes stop hiding under Korolev cape. They marked kod as friends. We were Ace from 95 and migrated to join kod in 94. After the first war they removed kod from friends in their board and just say Chiao friend our R5. Most of Krak members hated kod and ace as we zeroed them and won everything when we faced them. I don't consider anyone bad or or marked them as enemy. But I can not let them disrespect my friends. The middile string is pic that written krak in the middile. And I made it look like crack".

“NO MORE ARSENAL AND NO MORE NAP..!!” ANNOUNCED KILLER QUADS, FEDERAL PRESIDENT OF STATE 98

✍MsLadyGrim

After losing the State Supremacy battle against State 96, Killer Quads announced that there will no longer be any Arsenal rotation and that the NAP is disbanded. According to the statement sent through presidential mail, only a few had been participating.

Four minutes after that first presidential mail, the president sent another one saying: “No NAP whole server. Be ready to get loot by me”.

Twelve hours later, another presidential mail was sent, in which President Killer Quads said: “Im so sorry what happen yesterday. i didnt mean that actuallu. I was very angry and upset what happen yesterday. Anyway we will keep server NAP as usual and maybe we will change new rules. Sorry again about yesterday and have a good day everyone”.

Killer Quads has been president 11 times under the NEO SQUAD [N’S] alliance. According to one of the leaders of the five strongest alliances of State 98: “The president has always been Quads, but the current Quads is not the same person. He handed over the account to Killer and changed the name to Killer Quads. So technically, there have been two presidents using one account.”

The same leader described former president Killer Quads as: “Killer was an R4 in N’s, someone you could generally talk to. I used to be R4 and Quads (the original) never answered messages. Killer was more approachable. Overall, I liked that he became the new president because he tried to unite the server.”

They went on to say: “While the original Quads only cared about his own alliance, Killer Quads tried to make other clans feel comfortable. Overall, he was a good president, and his statement about breaking the NAP was unexpected.”

“He did a good job giving others more opportunities to grow, not just N’s. He was more approachable, answered messages, allowed alliances to rotate arsenals and hold territories according to their rank. Same with lakes, he distributed them and tried to be fair.”

Regarding the presidential mail, they added: “I’m sure rumors will spread that the server is dead, but the reality is that the schedule doesn’t favor most people. In several countries, we’re working at that time, or sleeping. I just think it was a hasty statement, made out of anger over losing.”

At the time of closing this report, former president KingEslaM, from the N’S alliance, once again took office for the fourth time, becoming the sixteenth Federal President of State 98.
