

THE PROBLEMS FACING THE ALLIES OF STATE #89

✍ LT EDITORIAL TEAM

In the World Chat of State #89, some of the issues facing this sector have been discussed by allies from different alliances.

Chronologically, the Luxury Time editorial team has compiled the issues mentioned in their respective order:

- Looting of trucks
- Allies attacking an ally from the same alliance
- Players attacking others within the NAP
- Enforcing rules with double standards
- Enforcing something and then not enforcing it when it comes to them
- Constant scouting

There are four days left until the fourth season officially begins in State #89. The Luxury Time editorial team reiterates and calls on all allies and alliances of State #89 to promote national unity, inviting everyone to reflect and work together with President Bosku.
